Subject: RE: CFAC Phase II SAP comments

Hi Mike,

We discussed adding them when we had our meeting at CFAC and I asked that they be added to the list. So Yes please copy them on everything moving forward.

I will send the comments we have once I have a chance to go through them. I have shared them with Brian and David so hopefully we won't get duplicate comments.

Mike

Mike,

They weren't on the original list for distribution. It seems they were being looped in as needed. Should they be copied on everything moving forward?

We'll forward it over now to them.

Is there any way you can send the other comments, while we give them some time to review?

From a big picture perspective, it would be most important to share any comments that might effect the work schedule.

Reminder, we have the drillers scheduled to mobilize onsite on April 26th.

Did David and Brian not get copied on this? I thought you told me you were sharing this with everyone? This may delay our response.

Well, I guess that's a problem. I will set up a FTP for a file transfer.

Hi Gunnar,

I just spoke with David Berry and neither of us received this SAP to review.

Brian

Subject: CFAC Phase II SAP comments

Mike:

CDM Smith has completed our review of the Phase II Site Investigation work plan for the CFAC site. Attached are our comments.

David and Brian:

In past discussions with Mike, we agreed that it would be good to try to keep the EPA comments in one document. I suggest editing the attached comment set in markup mode, adding any additional comments you see fit.

Dick:

You are welcome to do the same, but if DEQ wants to keep their comments separate, I understand. If you do want to work within one set of comments format, we can change the title to read EPA and DEQ comments.

All:

We are running a bit late on these, so if we can have all additional comments back to me by noon Thursday, I can combine them all and get to Mike Friday for his transmittal to CFAC. Let me know if there are any questions.

Thanks,

P.S. I had a call from Mike Ritorto last week. They are aiming to get us the South Percolation Ponds Expedited Risk Assessment by mid April. Just a heads up.
